New Product Introduction
Powered by Mult_ePay Gateway
Gateway For Innovation

InStor BillPay
InStor Same Day BillPay
InStor Debit Loading
InStor Wireless Loading
AnyTime Money Orders

A Growing Trend

According to the Neilson Report, card-based instruments continue to grow as a preferred method of payment. As more immigrants pour into the USA they rely on the ability to survive without taking part in the standard banking system and without a checking account.

This button will open a new window. You will be able to view a Payments Demo of each of the products. The video is 00:05:15 in length.

This demo will allow you to interact directly with the product screens. You'll be viewing the EmpaSys payment screens from a operator's point of view.

The Solutions

Banking For The UnBanked and UnderBanked

AnyWhere Money Orders
International Money Transfer

InStor BillPay

InStor has joined the PABH Network, which gives us millions of consumers that are already in the InStor BillPay system. All start up kits and customer support is in place an fully functional.

Typically, the "unbanked" or "underbanked" customer purchases money orders to make payments remitted by mail. Instead of purchasing money orders, with this service he can establish an account at a "Pay All Bills Here" pay station and return to the location each time a bill is to be paid. Or, once a payer has an account within the system, he can visit any "Pay All Bills Here" pay station location, anywhere in the country, to make a payment.. We pay all bills in and out of our network.

InStor SameDay BillPay

Many of the consumers needing our BillPay products at times need to pay a bill the day they walk in to a store. For them we have **SameDay BillPay**. We can meet that need for many of our In-Network companies.

InStor DebitLoad

One of the most effective solutions for the millions of unbanked customers is a prepaid debit card. InStor DebitLoad™ prepaid debit card loading solution is a web-based tool that enables your business to load cash onto a variety of prepaid debit cards for your customers.

Whether you sell prepaid debit cards or not, your store location can become a "loading station" for multiple debit card providers. The InStor DebitLoad™ prepaid debit card loading solution allows you, the merchant, to provide a needed service to millions of customers, and build your retail store's business at the same time.

Become a part of the solution for the un-banked customers in your area by signing up as an InStor BillPay™ prepaid debit card loading agent.

InStor Wireless Load

The loading of all wireless prepaid cell phones rounds out our suite of products to make sure the merchant and the consumer can buy and sell all the products needed at their pay station.

AnyTime Money Order

This is our NEW revolutionary Money Order system that is web based and menus driven. The retailer is allowed to print the check at their location on their own paper. This does away with the costly paper stock that most checks are printed on. Guaranteed by InStor BillPay and only a fraction of the cost of any other Money Order company.

Anywhere Money Orders

This part of our system allows the retailer to email a Money Order to any remote location no matter where and is guaranteed. The person or location receiving the check can print these Money orders on any paper stock as well and is negotiable and guaranteed. just as any money order is.

International Money Transfer

The name says it best send Money anywhere in the world in a Flash

MultiPay Gateway

Our Gateway is the glue that brings our suite of products together. All of our products are preloaded on the gateway and can be made live within 24 hours of the retailer notifying Netcom they want to add a service.

Other Netcom Services on our Gateway:

Netcom Check Services

Netcom Credit and Debit Acceptance

ID CheX Verification Service for MSBs

Merchant Benefits

Build your business... Build your customer base..... Build consumer loyalty...

Using all of our InStor products not only builds store traffic but it will build loyalty.

By providing the InStor DebitLoad™ prepaid debit card loading solution, your business will be able to attract new foot traffic, provide a valued customer service to your existing client base, and generate additional transactional revenue.

Make more profit without an inventory cost through service fees

There is no cost to have our product no paper to buy or inventory to keep. When you sell our products you make service fees with zero inventory cost to you.

With an easy-to-use tool...

Being Internet based, the InStor BillPay™ solution is an easy to use, menu driven application that can be accessed anywhere an Internet connection is available. The point-and-click functionality makes the debit card loading process fast and easy, both for existing and new accounts. Most importantly, the user screens are easy to read and understand making the system user friendly for anyone!

That is dependable.

InStor BillPay™ is a very stable and dependable platform, and as the number of card providers increases, the system will easily accommodate the growth.

Customer Benefits

One easy application for InStor BillPay products

All but credit card acceptance on one application, how easy is that?

A convenient, practical cash management solution...

Prepaid debit cards provide the convenience of a credit card, without the debt; and offer customers a practical method for controlling their personal spending. Customers can use their Visa or MasterCard prepaid debit cards anywhere VISA or MasterCard are accepted.

With prepaid debit cards, a customer can only spend what they put on the card, which eliminates overdraft NSF) fees, and helps the customer avoid increased debt by limiting personal spending to only what's been loaded onto their card.

Safer than carrying cash...

By using a prepaid debit card, your customers eliminate the safety risk of carrying cash. With PIN number protection, prepaid cards are safer than carrying cash. If their card is lost or stolen, it can be cancelled and a replacement card sent to the customer.
